

NOTICE OF HIGHWAY IMPROVEMENT PROJECT

I-480, N 20th Street Sign Structure NH-480-9(14); C.N. 22910

Identified as ***I-480, N 20th Street Sign Structure***, this project would replace the sign structure on Interstate 480 (I-480) in Douglas County.

The proposed work on I-480 would begin approximately 0.05 miles west of the grade separations over 20th Street. This project includes the length of the sign and 0.25 miles ahead of or beyond the actual project limits to accommodate trenching of electrical conduit to nearby power sources.

The purpose of this project is to preserve the transportation asset, improve the reliability of the transportation system and perpetuate the mobility of the traveling public. The need for this proposed project is based on the current condition of the existing overhead guide sign structure.

Proposed improvements would consist of overhead sign structure replacement and ITS camera relocation.

This project would not require the acquisition of additional property rights. Access to adjacent properties would be maintained during construction but may be limited at times due to phasing requirements.

Construction is tentatively scheduled to begin as early as spring of 2027 and be completed as early as winter of 2027.

This project would be constructed primarily under traffic with lane closures controlled by appropriate traffic control devices and practices.

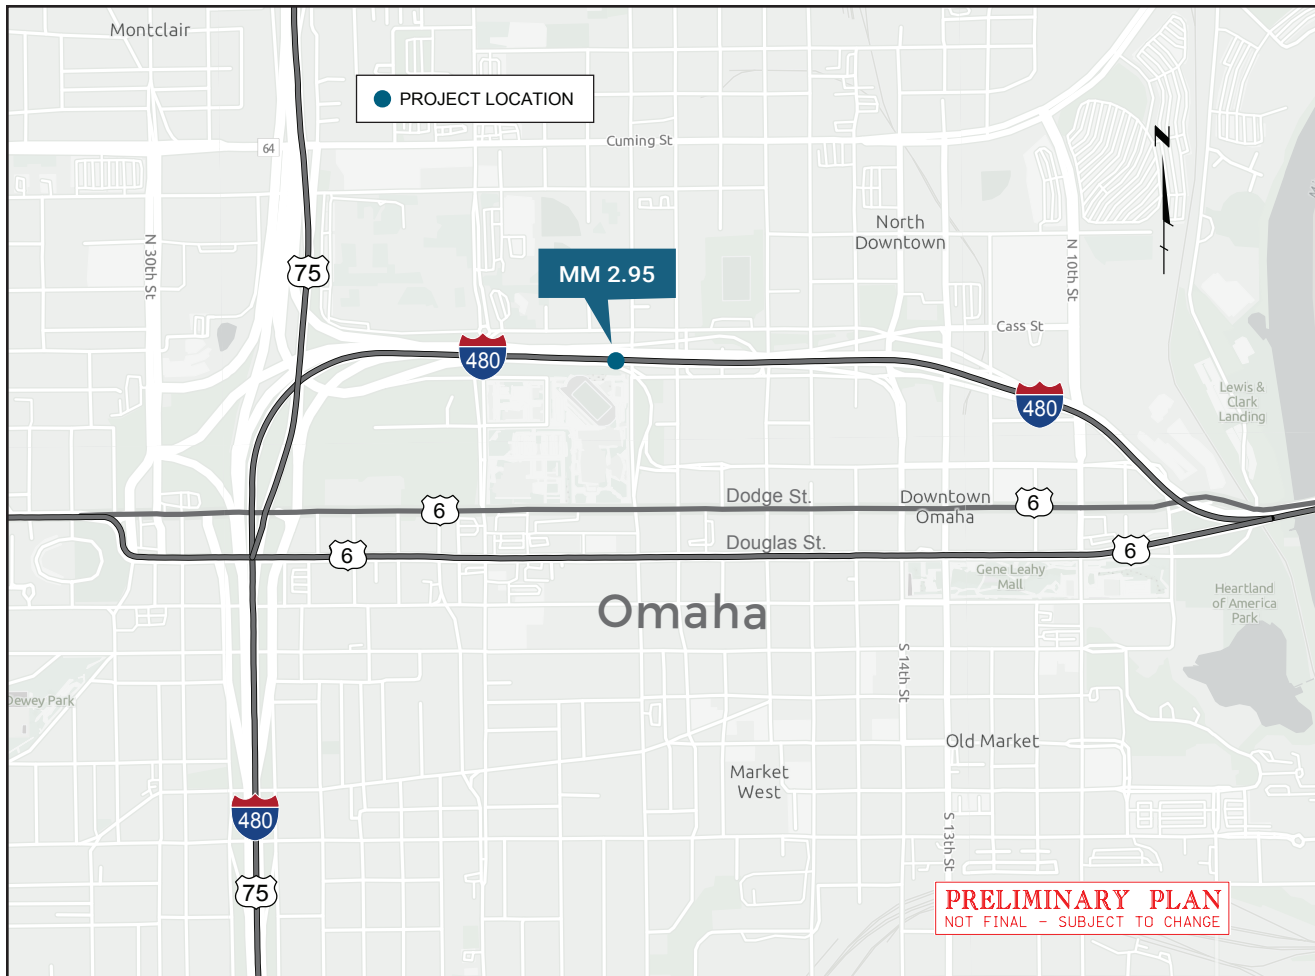

However, short duration overnight ramp and mainline I-480 closures would be required to facilitate structure removal and installation. Traffic would utilize alternate routes consisting of the adjacent highway and local street system as necessary. The majority of work would take place during the day using lane closures due to the limited workspace, but some work would be required to be accomplished at night to facilitate construction activities such as structure removal and installation.

NDOT has worked to develop this project to minimize inconvenience and hardships. We are dedicated to improving Nebraska's highway system, and with your help, we can achieve this goal.

Any questions or comments regarding this project should be submitted to: Sierra Luhn, Public Involvement Specialist, Nebraska Department of Transportation, P.O. Box 94759, Lincoln, NE 68509-4759; sierra.luhn@nebraska.gov; telephone 402-479-3103, fax 402-479-3989.

Information regarding the proposed project will be made available on the NDOT website at ndot.info/22910. For those without internet access, information may be obtained through the contact above or at NDOT Headquarters, 1500 Nebraska Parkway, Lincoln, NE. For further information, contact Thomas Goodbarn, NDOT District 2 Engineer, 402-595-2534, thomas.goodbarn@nebraska.gov.
