

ERRATA
Nebraska Department of Transportation
Roadway Design Manual

Chapter Eleven: Highway Plans Assembly

① January 2023
② October 2023

③ May 2025

The last update to the Roadway Design Manual (*RDM*) was in May 2022. In the intervening time some design guidance has become obsolete, new/updated guidance has become available, offices of responsibility have changed, design procedures have been streamlined, etc. The Nebraska Department of Transportation is continually in the process of updating the *RDM* but, in the interim, the obsolete/incorrect guidance is being addressed through this document and a re-issued *RDM*. Page numbers cited in this document are referenced to the latest Errata RDM. Deleted text in the Errata RDM ([Roadway Design Manuals - NDOT](#)) is in green with a strike through (~~errata~~) and new/corrected text is in red (correct). Additions to previously added text is in blue (added).

THE FOLLOWING ITEMS PERTAIN TO THE ENTIRE MANUAL:

January 2023 and all subsequent changes – Division and Section reorganizations have been incorporated, *RDM* Chapter Sections and **EXHIBITS** have been re-numbered as required by the errata. Chapter and **EXHIBIT** citations, Clarity task numbers, references, and internet links are updated to the latest edition of the *RDM* as are the Contents, List of Exhibits, and the Index

① January 2023

- Design Process Outline (*DPO*) task order/ terminology updated to the July 2022 edition.

② October 2023

- **Intelligent Transportation Systems (ITS)** transferred from the **Operations Division** to **Roadway Design** and combined with the **Lighting Unit** (02-27-2023)
- “Proposed Guidelines for Pedestrian Facilities in the Public Right-of-Way (with 2013 Supplement)” replaced by “Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way” (August 2023)

③ May 2025

- Appendix H is now in Chapter One: Roadway Design Standards, Section 9, AASHTO MINIMUM DESIGN GUIDANCE
- Appendix I has been consolidated with Chapter Six: The Typical Roadway Cross-Section, Section 2.C, Beveled Edge and removed from the *Design Manual*.
- Appendix K, Project Coordination Meetings, has been removed from the *Design Manual*. The forms may be found in OnBase and on the L Drive.

Chapter Eleven

① ERRATA JANUARY 2023

① 11-1 through 11-48	Extensive changes to Chapter Eleven due to changes in procedure (changes to the DPO, electronic plan submittal, etc.) See the <u>Errata RDM</u> for the changes.
----------------------	--

② ERRATA OCTOBER 2023

② 11-5	Added Section 1.D.1: Pre-PS&E Plans (Phase 7: Plan Package – Activity 5700)
--------	--

② 11-8	<p>Section 3.B: <u>Standard Symbols</u> Most of the symbology and patterning commonly used in the roadway design plans have been standardized and may be found in the Roadway Design Division (Roadway Design) “Cell Book”, under “Design Documentation” (web site).</p>	<p>Most of the symbology and patterning commonly used in the roadway design plans have been standardized and may be found in ProjectWise within NDOT’s active workspace.</p>
--------	---	---

② 11-9	<p>Section 3.C: <u>Standard Construction Notes</u>, First paragraph - The <u>Standard Notes</u> and <u>Tabular Notes</u> contain numerous cells used for construction notes. The number to the left of the note is for identification purposes only (it is also the name of the cell). These cells shall only be modified to fill in the underscores. Any other modification shall be approved by PS&E.</p>	<p>The Construction Notes and Tabular Notes contain numerous cells used for construction notes. These cells shall only be modified to fill in the underscores. Any other modification shall be approved by PS&E. Voided by May 2025 Errata</p>

Chapter Eleven

- ② 11-25 **Section 4.E: Environmental or Aerial Sheets (E)**

New third paragraph –
The Begin Station for each sheet shall start at a major station (100+00, 105+00, 110+00, etc.). The stationing and scale of each sheet, as well as the order of sheets, usually match that of the Plan, Plan over Plan, or Plan and Profile Sheets (See Section 4.L of this chapter).

- ② 11-27 to 11-29

Added **Section 4.J.1: Concrete Surfacing Elevations and Grades** and **EXHIBIT 11.4**
(Previously Chapter Eight: Surfacing, Section 9 and **EXHIBIT 8.2**)

- ② 11-30 **Section 4.L: Plan, Plan over Plan, or Plan and Profile Sheets (L)**

New final paragraph –
The Begin Station for each sheet shall start at a major station (100+00, 105+00, 110+00, etc.). The stationing and scale of each sheet, as well as the order of sheets, usually match that of the Environmental or Aerial Sheets (See Section 4.E of this chapter).

③ ERRATA MAY 2025

- ③ 11-9 **Section 3.C: Standard Construction Notes**,
First paragraph -
The Construction Notes and Tabular Notes contain numerous cells used for construction notes. These cells shall only be modified to fill in the underscores. Any other modification shall be approved by **PS&E**.

Section 3.C: Standard Notes
The Standard Notes Cell Book available at (web site), contains numerous cells used for construction notes. The Cell Book displays the cell name as well as providing guidance for where and when the note is placed. These cells shall only be modified to fill in the underscores. Any other modification shall be approved by **PS&E**.

Page	Existing Text	Corrected Text
Chapter Eleven		
③ 11-9	Section 3.C: <u>Standard Construction Notes</u>	Remove the second and third paragraphs
③ 11-16 to 11-20	<u>EXHIBIT 11.2: Distribution /Notification of Plans Availability</u>	Position titles updated
